STINGER

BIOGRAPHIE

The award-winning band STINGER was founded in 2016.

The head and rhythm guitarist of the band is Matthew Sting. The voice of the band belongs to Martin „Schaffi“ Schaffrath. The lead guitar is played by the youngest member of the squad, Adrian Seidel. Sammy Sin rules the drums and Simon Simon not only masters his bass excellently, he also finds a solution for every technical challenge the band may face. But how did these five become a band in the first place? Matthew Sting, who was working as a drummer for another band at the time, got a call from a friend, also a musician, in 2016. He was asked to represent his friend on one of their shows on the bass guitar. It then became two shows, but at the first rehearsal for their first gig, Matthew met the young guitar player Adrian from Chemnitz. He was immediately impressed by what this young guy, in his early 20s could do with a guitar and thought that he would definitely have him, once he may start his own band. In mid-2016, Matthew and Adrian met to zap through Matthew's demo songs. It quickly became apparent that the taste in music was almost identical to what Adrian was listening to. He liked it, and that was how the foundation for the success story of "STINGER" has been created.

STINGER

BIOGRAFIE

The all-rounder Simon already belonged to the original form of the band. The band's bass player was previously lead guitarist in another hard rock combo and not only plays guitar and bass, but also piano. Martin "Schaffi" Schaffrath has always been the preferred candidate for the vocals in Matthew's own band for a long time.

Originally, the Stinger guitarist thought that they would produce a charity-CD and that's it. Schaffi was asked to sing in for it. Matthew and Schaffi knew each other from their previous musicianship together. But since Schaffi is a very well booked man, it hadn't occurred to Matthew to ask him about being a part in a new band. So the little cheerful guy from Fulda really only joined the band shortly before the vocal recordings for the album took place.

Back then, with Teh Rencil on drums, everyone wanted to do something of their own and met in the rehearsal room. The non-binding session hit the five guys right in the heart - everything sounded good, everything seemed right. Plans were made straight away! Thank goodness - because that's how STINGER was born!

At the first German Pop & Rock Prize 2017 in Siegen, STINGER won the "Best Hard Rock Band in Germany" category for the first time and proved that the decision was the right one.

Since 2021 the band has a new drummer - Sammy Sin. The youngster from Stuttgart just recently completed his first gig with them and was officially accepted into the STINGER-family with big applause from the fan base.

PRESS TEXT

Nowadays, honest feelings and passion are more in demand than ever.

STINGER is a band that carries authenticity as a large banner. There are musicians at work, who write hand-made, honest songs. The result is thoroughly honest, raw hard rock, with a touch of blues that lays above all.

Founded in 2016, they have already brought top-class reinforcements on board for the first EP "MOSQUITO" and the long player "DISADVANTAGED". Three former AC/DC members and other musicians from ROSE TATTOO, as well as DORO and DIO, were chosen for the recordings.

The proceeds of the silver disc, which was awarded the "HARDROCK ALBUM OF THE YEAR 2017" at the GERMAN ROCK & POP AWARD, were donated to a parents' initiative for children with cancer in Germany.

With the CD „COLOURBLIND“, the band again won the GERMAN ROCK & POP PRIZE, this time for the best „HARDROCK ALBUM 2019“. Furthermore, STINGER were awarded as „BEST GERMAN HARD ROCK BAND 2019“. And then they did it again. In 2021 they won the GERMAN ROCK & POP PRIZE right away with the single release „Chasing Utopia“ for the „BESTE HARD ROCK SINGLE 2021“, which had only been released a month earlier.

In front of 50,000 spectators, STINGER were part of the new edition of the legendary WERNER RACE and already got people's attention at the legendary German festivals „WACKEN“, „CLASSIC ROCK NIGHT PYRAS“, „BALTIC OPEN AIR“ and at the „BONFEST“ in Scotland.

Like a gunboat, STINGER fires from all cylinders and convince the crowd. The groove that the guys present goes straight into the ears and legs. STINGER do not attach great importance to frills. What counts is the attitude towards life called ROCK 'N' ROLL.

Anyone looking for a band that inspires rock fans of all ages will make the best choice with STINGER. There are currently only a few bands that can impress the press and fans alike.

GERMAN ROCK & POP AWARD

Just a year after the band STINGER was founded and the first larger joint gigs, the band was awarded the German Rock & Pop Award for the "Best Hard Rock Album" in 2017. With a large armada of fans, the band traveled to Siegen in 2017 to receive their award.

In the same year, the STINGER boys performed at the international MEKKA for fans of cultivated loud music, at the WACKEN OPEN AIR in front of tens of thousands of spectators. Other well-known festivals followed, including the BALTIC OPEN AIR at the German Baltic Sea coast.

In 2018, STINGER appeared as the main act in the „Red Bull racing circus“ as part of the Motorcycle Grand Prix of Germany (MotoGP) at the Sachsenring in front of an international audience. The big circus tent, that was built especially for the event was packed to the top.

In 2019, the newly released album „COLOURBLIND“ received another award for the „Best Hard Rock Album in Germany“ and if that hadn't been cool enough itself, STINGER were also named „Best German Hard Rock Band“ of 2019.

Once again, STINGER won the coveted prize for the „Best Hard Rock Single“ 2021 with the single release „Chasing Utopia“ from the current album „Expect the Unexpected“. A repeat is definitely desired!

Corona has unfortunately thinned out the current tour list a bit, but on the following page there are a few examples of previous references from the band STINGER.

MOSQUITO

released on 18th February 2017

Label: Sofa Records Cologne

details:

Hard rock in the style of AC/DC. Guest musicians on the album include Mark Evans (Ex-AC/DC) and Bob Richards (Buck & Evans).

DISADVANTAGED

released on 25th March 2018

Label: Sofa Records Cologne

Album critics from RockHard:

"That's what I call a fat in-house production! For "Disadvantaged", STINGER brought together a number of well-known musicians such as former AC/DC members Simon Wright and Mark Evans, Ohrfeindt fronter ChrisLaut, Rose-Tattoo six-string Dai Pritchard and many more to donate the proceeds from the disc to children with cancer. Not only a noble undertaking by the combo from Allersberg, but also a damn good album that fans of AC/DC in particular and Aussie riff rock, with a helping hand of blues in general will love. My recommendation: 'Up To The Limit', 'Devil Rides Out' or 'Crazy Lady', turn up the loudspeakers and go berserk!

** You can listen to the record on Spotify, on stingerrocks.com there is information and the boys' online shop. „*

Album cristics from Heavy Metal Heaven:

The fat dirty mosquito is back and is giving you another sting. Stinger are back in 2019 with the brand new album „Colourblind“. An amazing cover artwork catches my eye the first time I look at it. The content: Hard rock of the kind that everyone who looks into this direction likes and listens to - that now has to be rated. Here we go.....

With „Disadvantaged“, Stinger have set the bar extremely high for themselves. Now this new album „Colourblind“ needs to claim itself against a masterpiece. We are excited The first song is „Hard To Believe“. It will immediately have you stomp your legs. I feel like I'm on a beer truck with a V8 engine that is rolling everything down. The beat goes into your blood and flows through your whole body. Rock'n'Roll, casual people and skulls are my first thoughts.

CHASING UTOPIA

released in 2022 | Label: ROCK OF ANGELS Records

Single critics from Metalvillage:

„Chasing Utopia“ - a song about the crazy look for success and what you actually leave behind ...

STINGER presents itself with the first single from the upcoming album „Expect The Unexpected“ in an astonishingly fresh style. Rich in melodies and full of harmonies, without losing the common thread from the predecessors, you reconnect where you actually expected the end.

STINGER stay in their corset with “Chasing Utopia”, but have opened the buttons comfortably wide. All the more astonishing that one managed not to leave the said corset with four guests on board. With the guitarists Vega (Stop, Stop!) and Stephan Reinhold (Udomat), they found two more than suitable „common strings“ who shared the solo. Stefan Lehmann from TORFROCK on the drums sounds like unleashed, emphasizing the riffs and the licks in the solos and playing surprisingly fitting into the song. For the four-string, the Fives from Allersberg have none other than the rock bass monster Billy Sheehan (MR. BIG, DAVID LEE ROTH, THE WINERY DOGS) on board. Sheehan proves to the utmost that he is simply such an extremely band-friendly musician. He fits seamlessly into STINGER’s Rock ,N ‘Roll, but insists on letting the genius break out in some places.”

ROLLER COASTER

ROLLER COASTER

released in 2022 | ROCK OF ANGELS Records

single critics from Time for Metal:

With "ROLLER COASTER", STINGER are releasing the second single from their album "EXPECT THE UNEXPECTED", which will be released in March. With a good mood in difficult times, STINGER look back on the past two years. Lyrically, a little sarcastic reappraisal with a wink and a look at the unexpected that life so often has in store. A song that invites you to rock along and activates the „feel good muscles“ in the jaw region, latest from the refrain. Singing along to the chorus is an absolute must and the guitar solo is probably the epitome of how the same can be incorporated into a song with perfect harmony

MONKEY

released in 2022 | ROCK OF ANGELS Records

single critics from Time for Metal:

„MONKEY“ is now the third single released by the Allersberger rocket before the full package will be released on March 25th, 2022 as part of the release of the album „EXPECT THE UNEXPECTED“. With an „affine“ video, STINGER hereby say goodbye to the past madness, right into the middle of the new insanity and, with a fat groove package, make fun of the society, which meanwhile regularly behaves in an „affine“ manner. Brutally grooving, it is provocatively split here. Lyrically with a whole pound of sarcasm, for what the boys are known for, musically a middle finger with an exclamation mark.

DISCOGRAPHIE

EXPECT THE UNEXPECTED

released on 13th of May 2022

Label: ROCK OF ANGELS Records

Album critics from Time for Metal:

Expect the unexpected - or - an unexpected, new, red thread...

The three-time winners of the German Rock & Pop Prize in the hard rock category STINGER stand for honest, down-to-earth hard rock. While the past few days have clearly oriented themselves to the relatively dry sound of Australian greats, the guys around Matthew Sting are treading a wonderfully refreshing path with the release of „EXPECT THE UNEXPECTED“ in terms of songwriting, melodies and especially the sound. In the meantime, the influences of well-known bands have spread so widely that it is no longer worth comparing STINGER to one or two bands. It feels like the five hard rockers from Allersberg have found their major sound. As a highlight, STINGER present Billy Sheehan (MR. BIG, DAVID LEE ROTH, THE WINERY DOGS), a real genius on the bass, who has immortalized himself on the song „Chasing Utopia“. That alone shows the appreciation this album deserves when musicians immortalize themselves on albums that fellow musicians and bands can choose from. A piece of rock history is being written here - not just for the band. Stories that life writes are skilfully put into text form and melody, musically and sound-technically extremely openly loaded with so much energy, every instrument is skilfully staged, a force of drums and still the definition of a unit

STINGER

DISCOGRAPHIE

"Mashed Potatoes" gives you the feeling of being free from everything. Stinger totally rock you here.

It's a lot of fun to hear these songs. Just dance, think nothing, be free from constraints and live this lightheartedness. Stinger convey this with "Colourblind".

"So Dark" comes threateningly towards you. The voice of Martin "Schaffi" Schaffrath cuts glass. A mid-tempo song with a killer groove and a gigantic guitar solo.

"Smile" is moving a little more forward. A rammer at its finest. The common thread runs through the new album. "Colourblind" - ties you to the speakers. You want more, much more!

The control bars are turned further and further to the right. The ground shakes and Stinger's music creates an earthquake.

"Deaf And Blind" is also rock'n'roll of the finest kind. Schaffi on the microphone was born for this kind of music. Like him also Matthew Sting puts his stamp on the band with his guitar rhythm.

"Suicide" rocks and rolls just like "Rollin Along" which impresses with its own magic. A somewhat dark, driving, slow song. Every song sounds like a stinger.

But every single song has enough potential to hold its own against the others!

Stinger don't have to worry about quality. Everything is really right here. Hard rock in 2019 with a catchy tune that is second to none.

It continues with "My Girl". Well, I'm sitting here with a dirty grin on my face and think to myself:

"What awesome shit is going on here right now."

???

Stinger bring back life and the guitars. Listening in a whirlwind of feelings. Rock'n'Roll, good mood, lust for life, passion and live concerts - these are the keywords that underline this.

"On The Edge" is extremely tight. A breaker, a song that will clink glasses and rock people. Promised!!!

"Stick It In", the penultimate song from "Colourblind" leaves me sitting with my mouth open. How cool is this song please? A guitar riff that couldn't be better. A song for eternity. This incredible journey ends with "From Heaven Above".

Conclusion: buckle up and make sure there is enough alcohol in the house. "Colourblind" will rock your balls. No one will sit on the bread hatch without a grin. Stinger beat the mighty "Disadvantaged" with their own rock'n'roll weapons.

UFO, STINGER - FRANKFURT, BATSKAPP

The concert evening begins unusually, namely earlier than announced. Those who are sitting comfortably in the Batschkapp beer garden will be kindly informed by the security at 7:45 p.m. that things are about to start. Those who get up quickly will be rewarded, because STINGER prove to be the ideal opener. Awarded advance praise from the jury of the German Rock & Pop Prize, the Süddeutsche put on a cool show. Stylistically located somewhere between AC/DC, Krokus, Rose Tattoo and Airbourne, they play earthy hard rock at a high level and have a strong singer in the ranks with Martin Schaffrath. However, he has to give way to the lead guitarist Adrian Seidel in the middle of the stage, who not only stands out for his committed playing, but also for his joy of movement, his propeller headbanging and his water showers. In the end, the Allersbergers took their chance and after their 45-minute performance they received much more than just polite applause.

The next day you can see both bands again at Lieder Am See, where STINGER slide into the program for The Sweet at short notice and strangely enough with a different line-up (vocals and bass) sensationally sweep away.

LIEDER AM SEE 2022 - STINGER, UFO, THE HOOTERS, SAGA UND DEEP PURPLE

Fantastic weather at the Brombachsee! And also a dream: The line-up of the 2022 Lieder-am-See-Festival. Unfortunately, THE SWEET had to cancel due to illness. STINGER jumped in at short notice and didn't even try to replace a hit package like The SWEET. From the first moment they set their own accents with their riff-soaked hard rock and managed to win the audience over to their side and convince them in no time. The positive charisma of the band did the rest and made you want more.

Die Band STINGER ist im Jahre 2014 gegründet worden und hat sich in der letzten Zeit sehr etabliert. Eine tolle Demo-CD, die zeigt, dass es noch Bands gibt, die nicht nur auf den ersten Blick wie eine 'Wiedergabe' von Bon Scott klingen, sondern die auch das, was Bon Scott war, in sich haben. Eine Hommage an AC/DC, Loner, Black, einfach cool.

Man kann natürlich nicht anders als schon bei den ersten Klängen an AC/DC der frühen Jahre denken: das ist der Sound und der Stinger einfach zu ähnlich. Es wird nicht nur gefordert, aber das hat man, eine extreme Unähnlichkeit zu haben. Und das ist es eindeutig.

Direkt der erste Song 'Hard To Believe' lässt die Gitarren ausklingen und geht richtig schön nach vorne. Man hört sich nicht nur an, wie man die Gitarren ausklingen lässt, sondern man hört sich auch an, wie man die Gitarren ausklingen lässt.

Stinger triumphiert beim Rock/Pop-Preis - Kategorie 'Beste deutsche Hardrock-Band'

Allersberg (HK) Die Allersberger Rockband Stinger hat Rock/Pop-Preis 2017 aberkannt. Die Musiker um Ban kehrt mit dem 2. Platz als beste deutsche Hardrock-Preisverleihung in Siegen zurück. In der Kategorie 'Beste deutsche Hardrock-Band' gewannen Stinger sogar den 1. Preis.

Der Deutsche Rock/Pop-Preis gilt als Deutschlands ältestes und größtes Nachwuchsfestival für Rock- und Popbands sowie Einzelinterpreten. Gut 1000 Musikerinnen und Musiker sowie Komponisten und Texter aus allen Teilen Deutschlands kamen nach Siegen, um sich dort der 17-köpfigen Fachjury zu stellen.

Auch die Allersberger Rockband Stinger hatte den weiten Weg nach Siegen angetreten. Unter den rund 1500 Bands, die sich für den Deutschen Rock/Pop-Preis beworben hatten, gehörte sie zu den glücklichen 90 Finalisten, die sich drei Minuten lang live vor der Jury präsentieren durfte.

Ihren Song 'Devil Rides Out' hatten sich Stinger für ihren Auftritt ausgesucht und präsentierten diesen voller Hingabe und Wucht. Die Halle war begeistert und Ole Seelenmeyer, Sprecher des Vorstands des Deutschen Rock/Pop-Musikerverbands kam nach dem Auftritt voller Lob und Begeisterung zur Band, wie Bandleiter Matthew Stinger unserer Zeitung berichtete.
